The Truth:

- **Chris opposes Critical Race Theory.**
- **Chris voted against Pelosi's January 6th witch hunt.**
- **Chris voted against Biden's Build Back Better bill.**
- **Chris voted against all three Trump Impeachment articles.**

HR 2639 had absolutely NOTHING to do with Critical Race Theory (CRT). Chris is strongly opposed to efforts to teach radical ideologies to children including CRT. He has cosponsored *The Stop Critical Race Theory Act*, HR 3179, to ban federal funds from going to any agency or contractor that would advance the false notions of CRT.

Further, Chris has also **cosponsored *The Parents Bill of Rights Act*** to foster transparency in schools and enhance parental rights by requiring postings of curriculum, reading materials and budgets.

Chris has voted dozens and dozens of times to secure our southern border. Two of the most significant votes include the landmark 2006 *Secure Fence Act* and his vote to defend President Trump's declaration of a national emergency at the southern border so that President Trump could transfer money from other accounts to build the wall while the Democrats were trying to block it.

On November 19, 2021, **Chris voted AGAINST Biden's Build Back Better Act**, HR 5376, roll call #385. Chris is strongly opposed to the multi-trillion dollar social spending spree in the BBB and its progressive priorities, like the Green New Deal.

On June 30, 2021, Rep. Smith **voted AGAINST Nancy Pelosi's bill, H.Res. 503, to create the hyper-partisan "select committee" currently conducting a "witch hunt"** related to the events of January 6th. Chris has also voted against efforts to hold Trump staff in contempt for not participating in the witch hunt.

Chris Smith is **fighting to protect election integrity** and fighting **AGAINST Democrat efforts to weaken election laws.** He voted against the Democrats' HR 1, HR 4, and the so-called *Freedom to Vote Act*. These bills would have overridden states' election laws and weakened election security by banning voter ID and allowing for same-day voter registration.

Chris Smith opposes mandatory vaccinations. He has cosponsored legislation to stop Biden's vaccine mandates, and has written his own legislation, HR 7570, to reinstate military members who were discharged for refusing to get the COVID-19 vaccine.

Chris voted for HR 550, which requires enhanced security standards for existing state databases, including to protect individual identifiable health information and address the need for increased cybersecurity to protect medical records. The bill does NOT set up a federal vaccine database and does NOT allow the federal government to access vaccine records.
